

USB-TTL Converter PL2303HXD (6Pin)

USB-TTL Converter is a USB-Serial Bridge Controller with high performance despite its low cost. This controller can be used in many operating systems with its high compatibility feature. This product can be used in laboratories, MCU communications and product testing. In short, the main purpose of this product is to provide an easy and fast transfer by converting devices with TTL terminals to USB terminals.

USB-TTL Converter PL2303HXD Specifications:

- Converted Connector Types: USB 2.0 to TTL
- TTL Voltage: 3.3V
- Cable Length: 97cm (Approx.)
- Cable Data Transfer Rate: 3Mbaud

Connection Style:

- Red Wire: +5V/DC
- Black Cable: GND
- White Cable: RXD
- Green Cable: TXD
- Yellow Cable: RTS
- Blue Cable: CTS
